To Whom It May Concern:

We are writing to strongly recommend Derek Nutile for a Senior Developer or similar role within your company.

Derek was employed by The Good as a Senior Developer, and during this time proved to possess great knowledge and skill in planning and programming for e-commerce and web application projects utilizing various technologies including Python/Django and PHP.

Derek cares deeply about process and making things better for the development team as well as the end client, and is a strong leader in both areas. For these reasons Derek is highly respected by his peers and us as business owners.

We believe that Derek would be a good fit for a company culture where quality is of the utmost importance.

Should you have any questions or wish to discuss further, I would be pleased to make myself available via phone at 503-488-5935.

Sincerely,
